Professional Summary

DevOps and Platform Engineer with nearly **6 years of professional experience**, including **3.5 years in cloud-native platform engineering on AWS**. Certified AWS Solutions Architect Associate, CKA, and Terraform Associate. Delivered **40% AWS cost reduction**, **60% MTTD improvement**, and **40% faster release cycles** across a multi-account, multi-tenant EKS environment. Expertise in Kubernetes, Terraform, CI/CD, GitOps, site reliability, observability, secrets management, incident management, and infrastructure automation. Experience with compliance controls aligned with **GDPR, PCI DSS, ISO 27001, and SOC 2**.

Technical Skills

- **Cloud & Infrastructure: AWS** (EC2, EKS, ECS, Lambda, S3, RDS, Aurora, VPC, IAM, Route 53, CloudFront, MQ, EFS, API Gateway, Secrets Manager, ACM, SSM), Karpenter
- **Infrastructure as Code (IaC):** Terraform (**HashiCorp Terraform Associate**), Ansible, Helm, CloudFormation (basic)
- **CI/CD & GitOps:** Jenkins, GitHub Actions, GitLab CI/CD, ArgoCD, SonarQube, Gripe
- **Containers & Orchestration:** Kubernetes (**CKA**), Docker, Helm Charts
- **Databases:** PostgreSQL, MySQL, Amazon RDS, Aurora Serverless, MongoDB
- **Monitoring, Observability & SRE:** Prometheus, Grafana, Zabbix, ELK/EFK Stack, AWS CloudWatch, SLA reporting
- **Security & Compliance:** GDPR, PCI DSS, SOC 2, ISO 27001, AWS Security Hub, IAM Policies, KMS, Keycloak
- **Scripting & Languages:** Python, Bash, SQL, YAML, JSON
- **FinOps & Cost Optimization:** AWS Cost Explorer, AWS Trusted Advisor, Rightsizing & Savings Plans
- **Cloud Architecture & Reliability:** High Availability, Disaster Recovery, Auto-scaling, On-call

Certifications

- **AWS Certified Solutions Architect - Associate**
- **Certified Kubernetes Administrator (CKA)**
- **HashiCorp Certified: Terraform Associate**
- **Github Actions Certified**

Professional Experience

DevOps & Platform Engineer
M&C Group - Tunis, Tunisia

January 2023 - Present

Financial Reconciliation Project:

- Maintained, improved, and industrialized a **multi-account AWS platform** built on **EKS, RDS, and VPC**, using Terraform and Helm.
- Designed and maintained **CI/CD pipelines** with GitHub Actions, Jenkins, and ArgoCD, enabling faster and more reliable software delivery.
- Automated build, deployment, and environment management workflows, reducing release cycle time by **40%**.
- Managed **6 Amazon EKS clusters** in a **multi-cluster / multi-tenant** setup, continuously improving platform stability and operability.
- Implemented a centralized observability with Prometheus, Grafana, ELK/EFK, and CloudWatch, reducing MTTD by **60%**.
- Investigated and resolved complex incidents and **performance issues** across **AWS** and **Kubernetes** environments.
- Led FinOps initiatives that reduced **AWS costs by 40%** and monitoring costs by **70%**.
- Collaborated with development, QA, and support teams to improve deployment reliability, accelerate delivery, and automate repetitive operational tasks.
- Contributed to security and compliance controls aligned with **GDPR, PCI DSS, ISO 27001** and **SOC 2** requirements.

RPA & AI Project:

- Designed and deployed two AWS environments (ECS and EKS) hosting an RPA and AI platform with **GPU-accelerated EC2 workloads** and enterprise SSO.
- Provisioned AWS infrastructure with Terraform including **EC2 GPU, RDS, and Keycloak/SSO**.
- Built self-service Jenkins jobs, Lambda automations, and scheduled shutdown mechanisms to streamline operations and optimize costs.

Technical Support Engineer (Level 3)

M&C Group (Amadeus) - Tunis, Tunisia

December 2020 - December 2022

- Resolved **critical escalated incidents** involving system failures and data corruption in revenue accounting systems, minimizing customer impact.
- Performed in-depth **root cause analysis (RCA)** for recurring issues and worked with developers to implement permanent fixes.
- Automated **50%** of manual troubleshooting workflows using Bash, Python, and SQL, building reusable **runbooks** to standardise procedures.
- Created and maintained **technical documentation** to improve knowledge sharing and operational readiness.
- **Promoted after one year** and supported the onboarding and coaching of new team members until full operational autonomy.

Additional Experience

.NET/C# Developer

Esprit Chief Information Officer - Tunis, Tunisia

October 2019 - October 2020

- Upgraded legacy system to ASP.NET MVC, implementing new features from requirements analysis to deployment.
- Collaborated with stakeholders to translate needs into technical tasks, estimating timelines and documenting code.
- Followed coding standards while delivering production-ready solutions in an Agile environment

.NET/C# Developer

Softfluent - Paris, France

June 2019 - September 2019

- Developed customer portal with full policy lifecycle management (products, orders, contracts)
- Implemented RESTful web services for seamless system integration
- Designed and maintained secure customer data tunnel architecture

Education

Software Engineering Degree (EUR-ACE Accredited)

ESPRIT School of Engineering

September 2013 - September 2019

- 5-year programme equivalent to Master's level
- Accredited by EUR-ACE, ABET, CTI.

Languages

- **English:** Fluent / Professional
- **French:** Fluent / Professional
- **Arabic:** Native

Interests

- Chess: Strategic thinking and focus under pressure (former competitive player)
- Travel: Exploring new cultures
